Prevox AB 64 Water-based Rust Preventative

Prevox AB 64 is a water-based rust preventative that can be mixed with water to form an effective protective coating for indoor ferrous materials. This synthetic-based product offers the advantages of being easy to apply, easy to remove, and low in cost compared to many other coatings. Rust preventives are not rust removers. They should be applied only to clean surfaces that are free of dirt, grease, oil, moisture, and rust.

Recommended Dilution Ratios: this product can be mixed at ratios between 5:1 to 10: 1 depending on humidity conditions.

Advantages and Benefits :

- Easy and safe to use
- Outstanding protection of interior surfaces of a wide range of equipment
- Provides an effective protective film
- Easy to apply and remove
- Mixes easily with water

Physical Characteristics

TEST	RESULTS
Specific Gravity	1.03
Flash Point F	None
Boiling Point	212°F
pH (Concentrate)	9.0-10.0
Appearance	Amber liquid
Odor	Mild Chemical

Available packages:
1 gallon bottle-4/case
5 gallon pail
55 gallon drum
275 gallon bulk tank
